Cluster sizes across hierarchy cuts for network scores_S241C
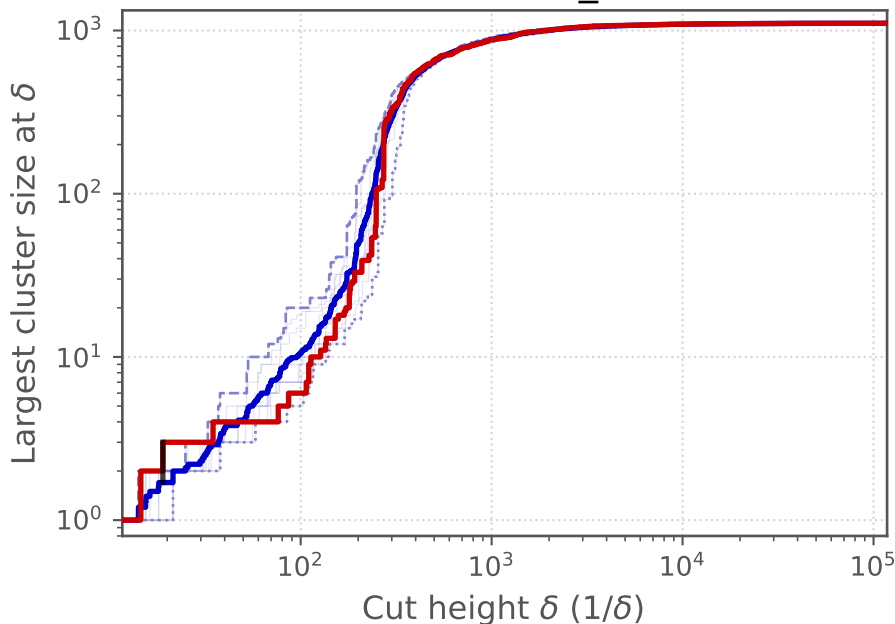

Legend:
- **Observed sizes** (red solid line)
- **Expected sizes** (blue solid line)
- **Chosen cut** (black solid line)
- Permuted sizes (minimum) (dotted line)
- Permuted sizes (all) (thin solid line)
- Permuted sizes (maximum) (dashed line)

Y-axis: Largest cluster size at δ

X-axis: Cut height δ ($1/\delta$)
